Everyday mark has to drive to school and get to class on time

When mark gets to school all of the parking spaces are taken and he spends so much time trying to find a place to park that he is late to class

Mark goes on the internet and finds the Passport Parking App which shows him available parking spaces so he wastes no time trying to find a parking space.

With this app Mark is able to quickly park and get to class on time

Due to the Passport Parking App mark was able to pass all of his classes and become one of the top graduates from his class

Storyboard

Joe is a new freshman at the University of South Carolina and is tired of walking to class. Therefore, he starts driving to his classes.
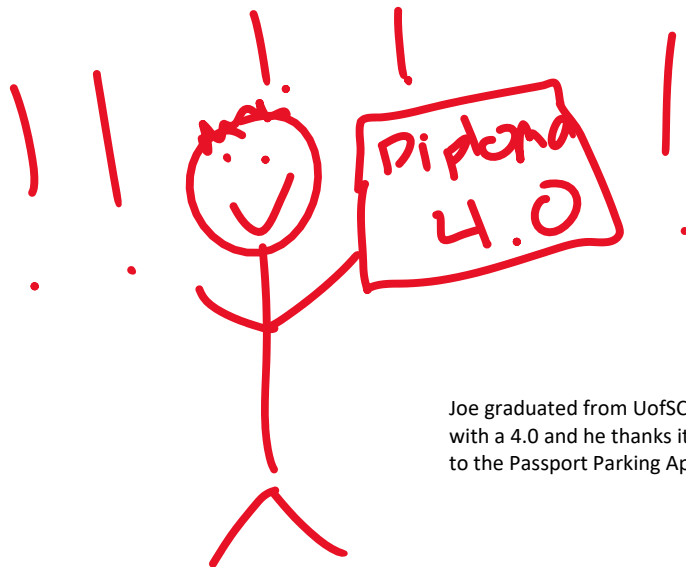

Joe soon realizes that university parking is terrible and he can never find a spot and ends up getting several tickets. Joe does not want to pay for a parking pass as it is too expensive.

Joe scours the web and finally finds the Passport Parking App that displays all the open parking spots across campus and how long he is able to park there for.
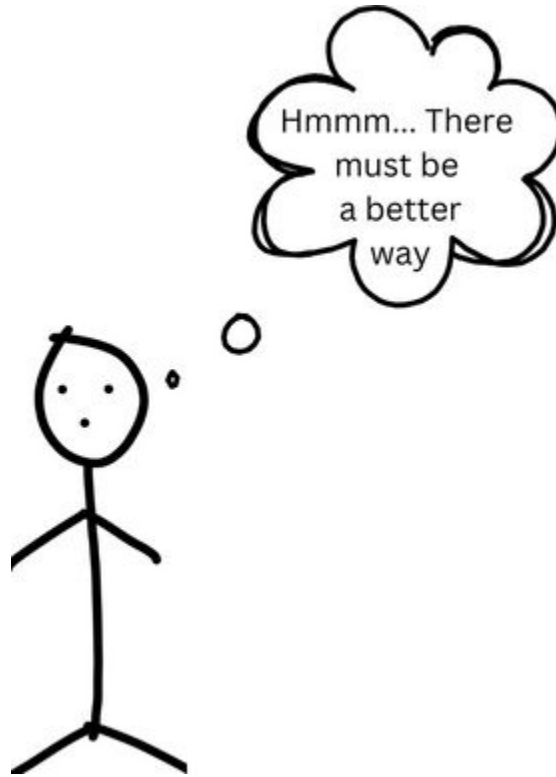

Joe is now able to make it to class on time and is more productive than ever before in his classes due to his time management with the Passport Parking App.

Joe graduated from UofSC with a 4.0 and he thanks it all to the Passport Parking App!
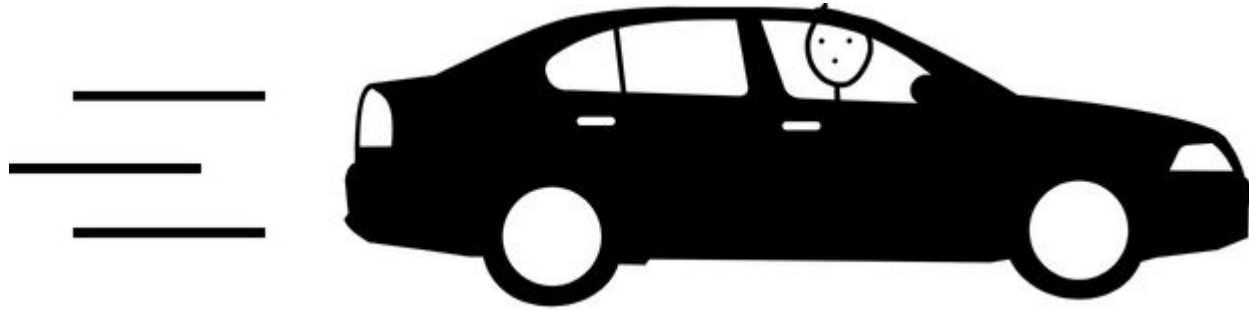

Everyday bob has to drive to class as he is an inspiring engineer, he is always running late and can never find any parking on campus. He always is late and it is starting to affect his grades.
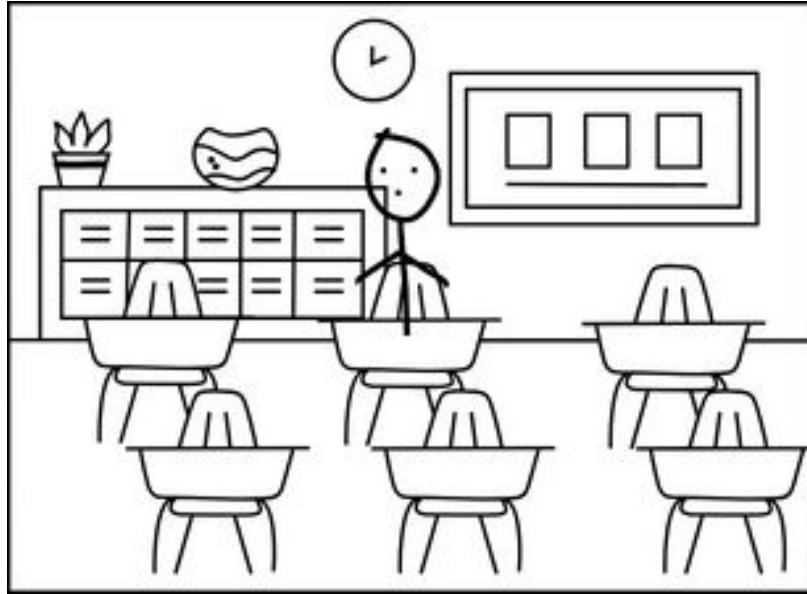

Bob wonders if there is any other way to get to class on time, or if there is something that can help.

Bob does some research and downloads the passport parking app, he is amazed to see a new feature that displays all open parking spots around campus.

Bob now can get to class on time everyday because he is not looking for parking, and start bringing his grades back up!

Bob makes it too class right on time for his final exams because of the app and couldn't be more relieved.

All thanks to this new feature in the passport app Bob aced all of his classes and is now the top engineer in the world!
